Newtonian constant of
gravitation

16

$$6.67384 \times 10^{-11} \text{ m}^3 \cdot \text{kg}^{-1} \cdot \text{s}^{-2}$$

A large, elegant, serif capital letter 'G' is centered on the card. It is flanked by two vertical decorative lines, each featuring a central scrollwork motif and small circles at the top and bottom.

$$6.67384 \times 10^{-11} \text{ m}^3 \cdot \text{kg}^{-1} \cdot \text{s}^{-2}$$
